Agile

Epic Name: 5.0 Admin Module

Description

The Admin Module provides you with full control of all settings that affect the action of your OrangeHRM implementation. Through the Admin Module, you can:

- Define the company hierarchy, pay grades, work shifts, projects, memberships, qualifications etc.
 - Add other administrators, and set access levels for each user
 - Handle security issues
 - Configure email notifications
 - Configure language localization and date format that will be reflected throughout the whole system. • Enable/Disable Module display
- The Admin Module is the central control of the system and setting it up accurately is important for smooth operation.

The Admin Module consists of:

User Management: Add multiple HR Admins who will control the system, create logins for general users through ESS Users.

Job: Allows the HR admin to define job titles, specifications, pay grades, employment status, job categories and work shifts.

Organization: Allows the HR admin to enter/store general company info, structure of the organization and locations of sites.

Qualifications: Define various skills set, education background, license types, languages and memberships. **Nationalities:** Define different nationalities

Configuration: Configure all email notifications, language localization and enable/disable module display

Agile

Epic Link: 5.0 Admin Module

Description

This feature allows the HR Admin to administer users by creating logins and defining privileges by assigning User Types (Admin or ESS).

To add a system user, go to **Admin>> User Management>> Users** and click "Add", a screen as shown in Figure 1.2 would appear.

Click "Save" once the fields are added.

***Note:** An employee list needs to be created first under the PIM Module to create user logins. Alternatively, a user login could be created when adding employees under the PIM Module (refer to Chapter 6.3.)

To create a user login the following needs to be entered:

- **User Role:** You can assign user roles for each user whether they would fall under as an "Admin" or "ESS" user type to define their user rights.

- **Admin:** have access full access to the system.

- **ESS:** limited access to the system. It could be an ESS-Supervisor or ESS-Employee.

1. ESS-Supervisor

: where the user has access to his/her particulars and his/her subordinates' particulars.

1. ESS-Employee

: where the user has access only to his/her particulars.

- **Employee Name**

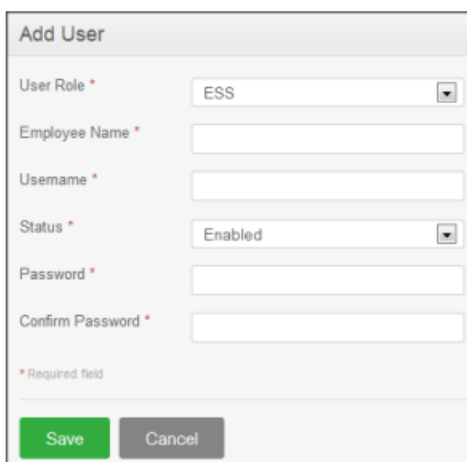

*If an HR Admin is an existing employee, he/she needs to be defined in the PIM Module

- **Username**
- **Status** – Enabled or disabled
- **Password**
- **Confirm Password** (Re-enter the password)

A list of user logins as shown in Figure 1.3 would appear once an entry is added. You may also add multiple entries of user logins. The default system user available will be Admin and has full access to the system. ***Note:** System User Logins need to be communicated manually to employees.

To delete a system user, click on the check box next to the “Username”. It is also possible to delete multiple entries at the same time by clicking the check box entries you wish to delete and simply clicking “Delete”.

Attachments

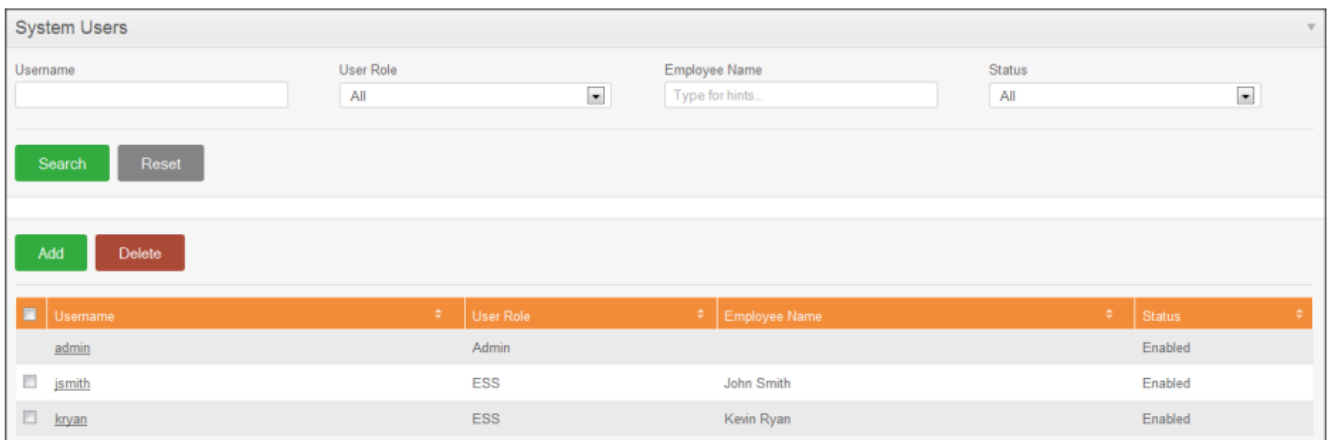

The 'Add User' form contains the following fields and controls:

- User Role ***: A dropdown menu with 'ESS' selected.
- Employee Name ***: A text input field.
- Username ***: A text input field.
- Status ***: A dropdown menu with 'Enabled' selected.
- Password ***: A text input field.
- Confirm Password ***: A text input field.
- A legend indicating that an asterisk (*) denotes a required field.
- Save** and **Cancel** buttons at the bottom.

Figure 1.2: Add User

Fig 1.2 Add User.png (20 kB)

The 'System Users' interface includes search filters and a table of users.

Search Filters:

- Username**: Text input field.
- User Role**: Dropdown menu with 'All' selected.
- Employee Name**: Text input field with placeholder 'Type for hints...'.
- Status**: Dropdown menu with 'All' selected.
- Search** and **Reset** buttons.
- Add** and **Delete** buttons.

System Users Table:

<input type="checkbox"/>	Username	User Role	Employee Name	Status
<input type="checkbox"/>	admin	Admin		Enabled
<input type="checkbox"/>	jsmith	ESS	John Smith	Enabled
<input type="checkbox"/>	kryan	ESS	Kevin Ryan	Enabled

Agile

Epic Link: 5.0 Admin Module**Description**

The HR Admin can define the pay grade by setting a minimum salary, maximum salary, step increase, and the currency to be paid in. To add an entry, go to **Admin>>Job>> Pay Grades** and click "Add" and a screen as shown in Figure 1.6 would appear. Click "Save" once the field is added.

Once you click "Save" the screen in Figure 1.7 would appear and you can now define the currency and the minimum/maximum salary for each pay grade created. You can define the pay grade by clicking "Add" under "Assigned Currencies" and then providing the pay details under "Add Currency". Click "Save" to save the currency for the Pay Grade.

You can assign multiple currencies here and each currency defined will be listed as shown in Figure 1.8.

You can edit details of a particular currency by clicking on the "Currency" name. All pay grades added will be listed as shown in figure in 1.9. To view Pay Grade details click on "Pay Grade name".

To delete a Pay Grade click on the check box next to the "Pay Grade" name. It is also possible to delete multiple entries at the same time by clicking the check box entries you wish to delete and simply clicking "Delete".

Description

In this feature the HR Admin can define work shifts for an individual or a group of employees. To add an entry, go to **Admin>> Job>> Work Shifts** and click “Add” and a screen as shown in Figure 2.4 would appear. Click “Save” once the fields are added. You may assign employees to the particular shift by selecting the employee’s name from the “Available Employees” box and “Add” him/her to the “Assigned Employees” box.

***Note:** An Employee list needs to be created first under the PIM Module before assigning employees to a particular work shift.

A list of work shifts as shown in Figure 2.5 would appear once a “Work Shift” is added. To view Work Shift details, click on “Work Shift” name. You may also add multiple entries of work shifts.

To delete a work shift click on the check box next to the “Work Shift” name. It is also possible to delete multiple entries at the same time by clicking the check box entries you wish to delete and simply clicking “Delete”.

Description

Precondition:

- An HR Admin can log into the application with valid credentials.
- The menu in the application can be accessed by the admin.
- The list of employees was created in Pim Module.

Test Step	Test Data	Expected Result
1. Go to "Admin>> User Management>> Users"	N/A	
2. Click on the green "ADD" button	N/A	
3. Select from "User Role" drop-down list	Admin	The user role is selected.
4. Fill in the "Employee Name" field with the name of the employee created in the Pim module.	ex. Martin Ion	The App recognizes the name and displays it.
5. Select the status for each user from field 'Status' (drop - down list).	Enabled	The status is selected.
6. Go to "Username" field to create a user name for the employee Martin Ion.	Insert martin.ion12	The user name is created.
7. Fill in the field "Password"	Insert Martinion12! The password should have at least 8 characters and must contain a lower-case letter, an upper-case letter, a digit and a special character.	The password is accepted.
8. Fill in the "Confirm Password" field	Re-insert Martinion12!	The password is confirmed.
9. Click on the green "Save" button	N/A	A successfully saved message is displayed.

Epic Link: 5.0 Admin Module

Description

Preconditions:

- An admin will log into the application with valid credentials.
- The menu in the application can be accessed by the admin.
- The list of employees was created in Pim Module.
- The HR Admin has added users to the User Management menu.

Steps:

- Go to "Admin>> User Management>> Users"
- Select from "Status" drop-down list - Disabled
- Press "Search" button.

Expected result: The list with all employees with the status "Disabled" is displayed.

Actual result: The following error message is displayed : " Invalid Parameter". The employee list is blank and the total number of records found from the previous search is displayed (see attached word 45 records found).
